

The Digital Nepal Conclave 2025, centered on the theme of ‘Digital Synergy,’ is set to be organized.

Or

The fourth edition of the ‘Digital Nepal Conclave’ will take place on 30th of Shrawan, with Google also participating.

Kathmandu. On the upcoming 30th of Shrawan, Friday, the fourth edition of **Digital Nepal Conclave** is going to be organized. ICT Foundation Nepal is organizing ‘Digital Nepal Conclave 2025’ under the slogan ‘Empowering Digital Nepal Together’. This year’s main theme is **‘Digital Synergy: Transforming Governance, Economy and Society’**.

The conclave, to be held at The Plaza located in Pulchowk, will feature more than eight sessions and over 50 speakers including national and international experts. With participation from the international company Google, the conclave will include sessions on Digital Governance, Digital Public Infrastructure, Digital Health, Digital Economy, ICT Industry Discourse, Power Dialogue, and more.

This year’s conclave will also offer an opportunity for research paper presentations. Research papers and innovative technologies and initiatives (Digital Initiatives) covering eight different areas under the Digital Nepal Framework will be presented. Organizers have informed that more than 15 Digital Initiatives (products) will also be showcased at the conclave.

It is expected that over 500 participants including representatives from federal, provincial, and local governments, policymakers, experts, and entrepreneurs will attend in person. Applications for research papers and Digital Initiative showcases, as well as detailed information about the conclave, can be submitted and viewed on the Digital Nepal Conclave website digitalconclave.org.

As a pre-event this year, ICT Foundation organized a two-day ‘Digital Karnali Conclave’ in Karnali Province and a one-day ‘Digital Madhesh Conclave’ in

Madhesh Province and ran the ‘ICT Gyan’ program on digital literacy campaigns across all seven provinces.

Digital Nepal Conclave is a meaningful initiative/campaign for digital transformation. In this program there will be extensive discussions, presentations, and interactions on the government’s efforts, plans, and programs for digital transformation and the contexts needed to achieve the goals.

Since the Government of Nepal published the Digital Nepal Framework in 2019, the Foundation has been conducting various campaigns and programs for Nepal’s digital transformation and ecosystem development. Tickets for participation in the fourth edition of ‘**Digital Nepal Conclave**’ can be purchased through the website.
